

Lamb Clip Rodders

Beef Rodder

The Adept Lamb Rodder is used to separate the weasand (oesophagus) away from the trachea and from other connecting tissue. The Adept Lamb Weasand Clip is then applied and pushed up into position using the Adept Lamb Rodder.

- Designed for optimum separation of connecting tissue without cutting
- Optional added Blade feature to allow for quick trimming
- Lightweight and ergonomic
- Polished finish for ease of cleaning and sterilization
- Fast and easy to use
